

CONTENTS

SECTION ONE : INTRODUCTION TO BURNS

1. Introduction	3
2. Nursing	5
3. Role of a Nurse in the Management of Burns	7
4. Anatomy and Physiology of Skin	11
5. Types of Burns	13
6. Initial Care	35
7. Classification of Burns	41
8. Pathophysiology of Burn Shock	42

SECTION TWO : ACUTE CARE

9. Introduction	51
10. Fluid Resuscitation	54
11. Nutrition	59
12. Burn Wound Care	71
13. Preparing the Patient for Surgery	86
14. Emergency Surgical Procedures in Burns	88
15. Skin Graft	91
16. Skin Substitutes	108
17. Pain Management	118
18. Out-Patient Care	120

SECTION THREE : COMPLICATIONS: EARLY AND LATE

19. Complications Encountered in Burns	125
20. Burn Wound Sepsis	131
21. Septic Shock	138
22. Adult Respiratory Distress Syndrome	139
23. Oxygen Therapy	145
24. Face Mask Continuous Positive Airway Pressure	147
25. Hypertrophic Scar and Keloid	149

SECTION FOUR : RECONSTRUCTION

26. Reconstructive Phase	155
27. Burn Contracture	157
28. Burn Reconstruction	160
29. Reconstructive Principles During Acute Phase	164
30. Post Burn Axillary Contractures	183

SECTION FIVE : REHABILITATION

31. Rehabilitation Phase	193
32. Rehabilitation of Hand Burns	201
33. Make Up for Burn Patients	210
34. Psychological Support of Burn Survivors	215
35. Burn Unit	217
36. Prevention of Burns	219
37. Burns: The Indian Scenario	234
