

Contents

1. The Concepts of Community Health Nursing	1
Introduction	1
Definitions of Community	1
Functions of Community	2
Concepts of Health	3
Definitions of Health	4
Relationships of Health and Illness	6
Concepts of Community Health	8
Concepts of Community Health Nursing	11
Philosophy of Community Health Nursing	11
Nature of Community Health Nursing	12
Definitions of Community Health Nursing	13
Scope of Community Health Nursing	16
Goals of Community Health Nursing	19
Principles of Community Health Nursing	22
2. Determinants of Health	25
Introduction	25
Human Biology as Determinant of Health	25
Human Genetics	26
Preventive Measures of Genetic Disorders	28
Lifestyle as Determinant of Health	30
Environment as a Determinants of Health	31
Water as a Determinant of Health	33
Purification of Water	38
Chlorine Alternatives	43
Surveillance of Drinking Water Quality	45
Air as a Determinant of Health	52
Air Pollution	54
Light as a Determinant of Health	58
Ventilation as a Determinant of Health	61
Noise as a Determinant of Health	63
Radiation Exposure and Environmental Health	65
Climate as a Determinant of Health	69
Housing as a Determinant of Health	74
Disposal of Waste as a Determinant of Health	79
Human Excreta Disposal	82
Methods of Excreta Disposal	83
Excreta Disposal in Unsewered Areas	83
Excreta Disposal in Sewered Areas	89
Sewage and its Treatment	90
Other Determinants	96
3. Epidemiology	103
Introduction	103
Natural Life History of Disease	114
Dynamics of Disease Transmission	128
4. Communicable Diseases	139
A. Viral Diseases	139
Influenza	144
Avian Flu	146
Mumps	154
Measles (Rubeola)	156
Rubella (German Measles)	158
Viral Hepatitis	159
Smallpox (Variola)	161
Chickenpox (Varicella)	162
Dengue Fever	164
Chikungunya	168
Severe Acute Respiratory Syndrome (SARS)	173
Trachoma	175
Rabies	178
Japanese Encephalitis	183
Kyasanur Forest Disease	187
B. Bacterial Diseases	190
Diphtheria	190

Pertussis (“Whooping Cough”) 193	Demographic Rates and Ratios 333
Tetanus 197	Population Explosion 336
Tuberculosis 200	To Sum Up 337
Leprosy 216	Population Stabilization 338
Meningococcal Meningitis 227	
Gas Gangrene 230	7. Family Planning 339
Cholera 231	Introduction 339
Typhoid 234	Spacing Methods: Non-Hormonal 345
Diarrheal Diseases 239	Hormonal Contraceptives 351
Bacillary Dysentery 245	Terminal Methods 352
Leptospirosis 251	Hormonal Methods 359
C. Protozoal Diseases 255	Medical Termination of Pregnancy 362
Amoebiasis (Amoebic Dysentery) 255	8. Evolution of Community Health 370
Malaria 257	Brief History of Community Health in
Kala-Azar 264	India 370
D. Worm Infestations 269	9. Health Planning and
Roundworm Infestation	Policies in India 379
(Ascariasis) 269	Introduction 379
Epidemiological Features 269	Health Planning in India 380
Pin Worm Infestation 270	Health Organization in India 401
Hookworm Infestation 271	State Ministry of Health and Family
Guinea Worm Infestation 273	Welfare 407
Filaria 275	State Health Directorate 408
Tapeworm Infestation 279	National Health Policy (1983) 411
E. Sexually Transmitted Diseases 281	National Health Policy (2002) 420
Syphilis 283	Current Scenario 422
Gonorrhoea 284	NHP-2002 – Policy Prescriptions 429
Chancroid 284	National Population Policy (2000) 438
Lymphogranuloma Venereum	Health Problems of India 444
(LGV) 285	Current State of Public Health in
Granuloma Inguinale 285	India 446
Aids 288	10. Delivery of Community Health Services
5. Noncommunicable Diseases 296	and National Health Program 447
Introduction 296	Evolution of PHC 447
Blindness 298	Organization Chart of Primary Health
Cancer 307	Center 449
National Cancer Control Programme 311	National Rural Health Mission
Cardiac Diseases 315	(NRHM) 452
Diabetes Mellitus 322	Duties of Medical Officer, Primary Health
Accidents 326	Center 453
Suicide 327	National Health Programs 471
6. Demography 330	National Antimalaria Program 473
Introduction 330	Universal Immunization Program
Process in Demography 330	(UIP) 479
Demographic Profile 333	

11. Maternal and Child	
Health Services	486
Introduction	486
Maternal Health Services	505
Nursing Management in First Trimester	506
Signs and Symptoms of Pregnancy	514
Personal Hygiene in Pregnancy	516
Intranatal Care	523
Postnatal Care	542
Status of the Newborn and its Care	547
Nursing the Under-Fives	551
Protein Energy Malnutrition (PEM)	559
Vitamin A deficiency	562
Common Illness and their Management	565
Immunization	570
Classification of Immunity	571
Immunoglobulins	573
Universal Immunization Program (UIP)	573
Preservation of Vaccines	576
Administration of Vaccines	578
Administration of Measles and BCG Vaccine	580
Planning and Implementation of Immunization Session	581
12. Special Health Programs	586
School Health Program	586
Occupational Health Program	594
Community Mental Health Nursing Program	602
13. Health Agencies	623
Voluntary Health Agencies	623
Community Audit	632
Nurse's Role	634
Monthly Summary Report	636
World Health Organization (WHO)	637
United Nations International Children Emergency Fund (UNICEF)	641
United Nations Development Programme (UNDP)	646
Food and Agricultural Organization (FAO)	647
Colombo Plan	647
14. Nursing Theories and Nursing Process	649
Nursing Theories and Conceptual Frameworks	649
Community Health Nursing Process	657
Assessment	658
Community Health Diagnosis	659
Planning	662
Implementation	664
Evaluation	665
15. Community Approaches, Primary Health Care and Health Education	667
Problem-Solving Approach	667
Evidence-Based Approach	668
Primary Health Care	670
Meaning of Health for all	670
Definition of Health for all	671
Evolution of Health for all (HFA)	671
Principles of "HFA" Development	671
Definition of Primary Health Care	672
Characteristics of Primary Health Care	672
Principles of Primary Health Care	673
Elements of Primary Health Care	674
Role of Nurses in Primary Health Care	675
Health Education	678
Steps in Carrying out a Health Education	689
Mass Media	693
16. Family Health Nursing	694
Family Health and Nursing	695
Home Visiting	697
Procedures Used in CHN Practice	700
Family Health Nursing Process	703
17. Disaster Nursing	717
Introduction	717
Meaning	717
Types	717
Epidemiology of Disaster	718
Factors Related to Epidemiological Framework	718
Phases of a Disaster	720

Dimensions of a Disaster 722
The Nurses Role in Disasters 723
Phases of Disaster Management 724
Stages of Disaster and the Role of
Nurses 727

18. Biomedical Waste Management 748
Introduction 748
Classification of Biomedical Waste 749
Sources of Health Care Waste 753
Index 773
