

Contents

SECTION 1: GENERAL PATHOLOGY

1. Introduction	3
<i>Normal cell structure and functions</i>	3
<i>Introduction to pathology</i>	4
2. Cell Injury and Adaptation	6
<i>Types of cellular responses to injury</i>	6
<i>Cellular adaptations</i>	6
<i>Definitions</i>	8
<i>Cell injury</i>	9
<i>Intracellular accumulations</i>	9
<i>Necrosis</i>	11
<i>Apoptosis</i>	14
<i>Pathologic calcification</i>	15
<i>Other tissue changes</i>	16
<i>Pigments</i>	17
3. Inflammation and Repair	19
<i>Acute inflammation</i>	19
<i>Sequence of events in acute inflammation</i>	20
<i>Chemical mediators of inflammation</i>	22
<i>Outcomes of acute inflammation</i>	24
<i>Morphological types/patterns of acute inflammation</i>	24
<i>Systemic effects of inflammation</i>	25
<i>Chronic inflammation</i>	26
<i>Granulomatous inflammation</i>	26
<i>Repair and healing</i>	26
<i>Cutaneous wound healing</i>	27
<i>Factors that influence wound healing</i>	28
<i>Complications of wound healing</i>	29
<i>Healing of a fracture</i>	30
4. Infectious Diseases	33
<i>Mycobacterial diseases</i>	33
<i>Tuberculosis</i>	33
<i>Leprosy</i>	36
<i>Syphilis</i>	39

- Bacterial diseases 41
- Viral diseases 42
- Rickettsial infections 44
- Chlamydial infections 45
- Fungal infections and opportunistic infections 45
- Parasitic diseases 45

5. Hemodynamic Disorders 50

- Hyperemia and congestion 50
- Edema 52
- Thrombosis 54
- Embolism 56
- Infarction 58
- Shock 58

6. Immunopathology 61

- Immunity 61
- Hypersensitivity: Immunologically mediated tissue injury 61
- Immediate (type I) hypersensitivity 62
- Antibody-mediated (type II) hypersensitivity 63
- Immune complex-mediated (type III) hypersensitivity 63
- T cell-mediated (type IV) hypersensitivity 64
- Autoimmune diseases 64
- Systemic lupus erythematosus 65
- Acquired immunodeficiency syndrome 65
- Amyloidosis 67

7. Neoplasia 72

- Classification 72
- Nomenclature of neoplasms 73
- Characteristics of benign and malignant neoplasms 74
- Carcinoma in situ 76
- Metastasis 77
- Events in invasion and metastasis 78
- Precancerous conditions/lesions 78
- Molecular basis of cancer 79
- Hallmarks of cancer 79
- Etiology of cancer (carcinogenic agents) 80
- Laboratory diagnosis of cancer 81
- Prognosis 82
- Common specific epithelial tumors 83
- Mesenchymal tumors 83
- Peripheral nerve sheath tumors 84
- Skeletal muscle tumors 85

8. Nutritional Disorders 86

- Fat-soluble vitamins 86
- Water-soluble vitamins—vitamin B complex 89
- Protein-energy malnutrition 91

Obesity	92	
Bulimia	93	
9. Genetic Disorders		95
Genes	95	
Classification of genetic disorders	95	
Mendelian disorders/single-gene or monogenic disorders	95	
Chromosomal aberrations	97	
Trisomy 21 (Down syndrome)	97	
Klinefelter syndrome	99	
Turner syndrome	100	
10. Radiation		101
Types of radiation	101	
Quantitation of radiation	101	
Main determinants of the biologic effects of ionizing radiation	102	
SECTION 2: SYSTEMIC PATHOLOGY		
11. Vascular Disorders		109
Arteriosclerosis	109	
Atherosclerosis	109	
Aneurysm and dissection	111	
Hypertension	112	
Vasculitis	113	
Vascular tumors	113	
12. Heart Disorders		115
Heart failure	116	
Ischemic heart disease	118	
Myocardial infarction	118	
Valvular heart disease	120	
Rheumatic fever and rheumatic heart disease	122	
Infective endocarditis	124	
Noninfected vegetations	126	
Carcinoid heart disease	126	
Complications of prosthetic valves	126	
Cardiomyopathy	127	
Congenital heart disease	127	
Pathology of pericardium	129	
13. Hematology		132
Disorders of red cells	134	
Anemia	134	
Iron deficiency anemia	136	
Megaloblastic anemia	137	
Pernicious anemia	139	
Anemias of blood loss	139	
Aplastic anemia	140	

Hemolytic anemia 140
Hereditary hemolytic anemia 141
β-thalassemia major 142
Sickle cell anemia 143
Acquired hemolytic anemias 145
Disorders of white cells 146
Normal differential leukocyte count 146
Quantitative disorders of leukocytes 146
Acute leukemia 148
Acute lymphoblastic leukemia/lymphoma 148
Acute myelogenous leukemia 150
Chronic myelogenous leukemia 151
Chronic lymphocytic leukemia 152
Disorders of hemostasis 153
Normal hemostasis 153
Classification of hemostatic disorders 153
Immune thrombocytopenic purpura 154
Coagulation disorders 155
Hereditary coagulation disorders 155
Hemophilia 155
Acquired coagulation disorders 157
Laboratory evaluation of bleeding disorders 158
Plasma cell neoplasms 160
Multiple myeloma (plasma cell myeloma) 161
Blood transfusion 161
Spleen 164

14. Lymph Nodes

166

Structure of lymph node 166
Lymphadenopathy 166
Lymphadenitis 167
Lymphoid neoplasms 167
Non-Hodgkin lymphoma 168
Hodgkin lymphoma 170
Metastatic carcinoma 173

15. Respiratory System

174

Normal structure and function 174
Pulmonary infections—pneumonia 174
Tuberculosis 177
Chronic obstructive pulmonary diseases 177
Bronchial asthma 179
Bronchiectasis 180
Lung abscess 181
Chronic restrictive pulmonary disease 182
Pneumoconioses 183
Passive congestion of lung and pulmonary edema 185
Lung cancer 186
Pleura 188

16. Head and Neck	190
<i>Oral cavity</i>	190
<i>Upper airways</i>	191
<i>Larynx</i>	194
<i>Ears</i>	196
<i>Salivary glands</i>	197
17. Gastrointestinal Tract Disorders	201
<i>Normal anatomy</i>	201
<i>Esophageal cancer</i>	201
<i>Stomach</i>	202
<i>Intestine</i>	208
<i>Tumors of intestine</i>	211
<i>Polyps of colon</i>	212
<i>Colorectal cancer: Adenocarcinoma</i>	213
<i>Acute appendicitis</i>	215
<i>Malabsorption syndrome</i>	216
<i>Inflammatory bowel disease</i>	216
<i>Peritoneum</i>	217
18. Liver, Biliary Tract and Pancreas	219
<i>Normal structure and function of liver</i>	219
<i>Jaundice</i>	219
<i>Viral hepatitis</i>	222
<i>Alcoholic liver disease</i>	225
<i>Cirrhosis</i>	225
<i>Liver abscess</i>	228
<i>Hemochromatosis</i>	229
<i>Tumors of liver</i>	229
<i>Pathology of gallbladder</i>	230
<i>Pathology of pancreas</i>	232
19. Urinary System	235
<i>Normal anatomy</i>	235
<i>Classification of renal diseases</i>	236
<i>Clinical manifestations of renal diseases</i>	236
<i>Congenital and developmental anomalies</i>	236
<i>Cystic diseases of the kidney</i>	237
<i>Glomerular diseases</i>	239
<i>Tubular and interstitial diseases</i>	242
<i>Pyelonephritis and urinary tract infection</i>	244
<i>Tuberculosis of the urinary tract</i>	246
<i>Diabetic nephropathy</i>	246
<i>Renal vascular diseases</i>	247
<i>Urinary tract obstruction (obstructive uropathy)</i>	248
<i>Chronic kidney disease</i>	251
<i>Renal replacement therapies</i>	252
<i>Malignant tumors of the kidney</i>	253
<i>Urothelial tumors</i>	255

20. Male Genital System	257
<i>Inflammation of epididymitis and orchitis</i>	257
<i>Testicular tumors</i>	258
<i>Pathology of prostate</i>	259
<i>Carcinoma of penis</i>	261
21. Female Genital System	263
<i>Uterine cervix</i>	263
<i>Uterus</i>	265
<i>Gestational trophoblastic disease</i>	267
<i>Ovary</i>	269
22. Breast	274
<i>Normal anatomy</i>	274
<i>Mastitis</i>	274
<i>Benign tumors</i>	274
<i>Carcinoma of the breast</i>	275
23. Bones, Joints and Soft Tissue Tumors	279
<i>Congenital disorders</i>	279
<i>Infections—osteomyelitis</i>	280
<i>Metabolic bone diseases</i>	282
<i>Bone tumors</i>	283
<i>Joints</i>	286
<i>Infectious arthritis</i>	286
<i>Soft tissue tumors</i>	290
<i>Pediatric tumors</i>	291
24. Endocrine Disorders	293
<i>Pituitary gland</i>	293
<i>Thyroid gland</i>	293
<i>Parathyroid glands</i>	301
<i>Adrenal glands</i>	301
25. Diabetes Mellitus	306
<i>Type 1 diabetes</i>	306
<i>Type 2 diabetes</i>	307
<i>Pathogenesis of the complications of diabetes</i>	307
26. Skin	312
<i>Acute eczematous dermatitis</i>	312
<i>Psoriasis</i>	312
<i>Malignant tumors of skin</i>	313
27. Peripheral Nerves and Skeletal Muscles	317
<i>Neuromuscular diseases</i>	317
<i>Diseases of peripheral nerves</i>	317
<i>Diseases of the neuromuscular junction</i>	320
<i>Diseases of skeletal muscle</i>	320

28. Central Nervous System	323
<i>Infections</i>	323
<i>Cerebrovascular diseases</i>	325
<i>Intracranial hemorrhage</i>	326
<i>Paraplegia</i>	327
<i>Hemiplegia</i>	327
<i>Demyelinating diseases</i>	328
<i>Neurodegenerative diseases</i>	328
<i>Central nervous system tumors</i>	329
29. Eye	333
<i>Normal structure</i>	333
<i>Eyelids</i>	333
<i>Orbit</i>	334
<i>Conjunctiva</i>	334
<i>Sclera</i>	335
<i>Cornea</i>	335
<i>Anterior segment</i>	336
<i>Uvea</i>	337
<i>Retina and vitreous</i>	338
<i>Optic nerve</i>	341
SECTION 3: CLINICAL PATHOLOGY	
30. Anticoagulants and Hemoglobin Estimation	345
<i>Anticoagulants</i>	345
<i>Collection of blood</i>	346
<i>Hemoglobin estimation</i>	347
31. Blood Cell Counts	349
<i>Red blood cell count</i>	349
<i>Total WBC count</i>	350
<i>Platelet count</i>	352
<i>Absolute eosinophil count</i>	352
32. Hematocrit, ESR Estimation and Peripheral Blood Smear Examination	354
<i>Hematocrit</i>	354
<i>Erythrocyte sedimentation rate</i>	355
<i>Peripheral blood smear examination</i>	356
<i>Stains for blood smear</i>	356
<i>Preparation of the peripheral blood smear</i>	357
<i>Fixation of the smear</i>	357
<i>Staining of the smear</i>	358
33. Reticulocyte Count	359
<i>Methods of reticulocyte count</i>	359
34. Bone Marrow Examination	361
<i>Bone marrow aspiration</i>	361
<i>Bone marrow trephine biopsy</i>	362

35. Cerebrospinal Fluid Examination	363
<i>Method of collection</i> 363	
<i>Examination of cerebrospinal fluid</i> 364	
36. Body Fluids, Gastric Analysis and Sputum Examination	365
<i>Examination of body fluids</i> 365	
<i>Examination of synovial fluid</i> 366	
<i>Gastric analysis</i> 367	
<i>Sputum examination</i> 368	
37. Semen Analysis	370
<i>Semen analysis</i> 370	
38. Urine Analysis	373
<i>Physical examination</i> 373	
<i>Chemical examination</i> 374	
<i>Microscopic examination</i> 378	
<i>Urine culture and sensitivity</i> 379	
39. Stool Examination	380
<i>Stool examination</i> 380	
<i>Stool culture and sensitivity</i> 382	
Index	385
