

Contents

SECTION 1: INTRODUCTION

- 1. Epidemiology of Vasculitis** **3**
Durga Prasanna Misra
Large-vessel Vasculitis 3
Medium-vessel Vasculitis 4
Small-vessel Vasculitis 5
Variable Vessel Vasculitis 6
- 2. Genetics of Vasculitis** **9**
Ramya J, John Mathew
Large-vessel Vasculitis 9
Medium-vessel Vasculitis 11
Small-vessel Vasculitis 11
Monogenic Complex Systemic Autoinflammatory Syndromes with Vasculitis as
One of the Manifestations 12
- 3. Classification of Vasculitis** **15**
Prateek Deo, Aman Sharma, Richard Watts
American College of Rheumatology 1990 Criteria 16
Chapel Hill Consensus Conference Nomenclature System 16
European Medical Agency Algorithm 17
2022 American College of Rheumatology/European Alliance of Associations for
Rheumatology Classification Criteria for ANCA-associated Vasculitis 17
Classification of Childhood Vasculitis 17

SECTION 2: BASIC SCIENCES

- 4. Neutrophils in ANCA-associated Vasculitis** **23**
Jennifer Amsler, Véronique Witko-Sarsat
The ANCA Antigens PR3 and MPO: Keys in the Pathophysiology of
ANCA-associated Vasculitides 23
Neutrophil Functions in ANCA-associated Vasculitis 25
Role of ANCA in Neutrophil Activation 26
Neutrophils as Targets for New Therapeutic Approaches 27
- 5. Antineutrophil Cytoplasmic Antibodies** **31**
Prateek Deo, Uday Pratap Singh Parmar, Kusum Sharma, Aman Sharma
Antineutrophil Cytoplasmic Antibodies 31
Antineutrophil Cytoplasmic Antibody-associated Vasculitis 31

Production of Antineutrophil Cytoplasmic Antibody	31
Interaction between Antineutrophil Cytoplasmic Antibodies and their Target Antigens	32
Pathophysiology of Antineutrophil Cytoplasmic Antibody-associated Vasculitis	32
Genetic Association of Antineutrophil Cytoplasmic Antibody-associated Vasculitis	32
Environmental Factors	32
Pathogenic B-cell Response and Production of Antineutrophil Cytoplasmic Antibody	32
Aberrant T-cell Response and Granuloma Formation	33
Monocyte Activation and Antineutrophil Cytoplasmic Antibody-associated Vasculitis	33
Antineutrophil Cytoplasmic Antibody-mediated Interaction between Neutrophils and Endothelial Cells	33
Antineutrophil Cytoplasmic Antibody in the Diagnosis of Vasculitis	33
Antineutrophil Cytoplasmic Antibody Titers in Management of Antineutrophil Cytoplasmic Antibody Vasculitis	34
6. Animal Models of ANCA Vasculitis	36
<i>Conor Finlay, Mark A Little</i>	
Passive Transfer Models of MPO-AAV	37
Active MPO-AAV Models Induced by Immunization	38
Rodent Models of PR3-ANCA Disease	38
Insights from Animal Models	39
7. Pathogenesis of Vasculitis	41
<i>Durga Prasanna Misra, Anupam Wakhlu, Vikas Agarwal</i>	
Classification and Nomenclature	41
Pathogenesis of Large-vessel Vasculitis	41
Pathogenesis of Medium-vessel Vasculitis	43
Pathogenesis of Immune-complex-mediated Small-vessel Vasculitis	44
ANCA-associated Small-vessel Vasculitis	45
8. Pathology of Cutaneous Vasculitis	51
<i>Bishan Dass Radotra</i>	
Large-vessel Vasculitis	51
Medium-vessel Vasculitis	51
Small-vessel Vasculitis	52
9. Pathology of Pulmonary Vasculitis	56
<i>Amanjit Bal, Ashim Das</i>	
Primary Vasculitides	56
Secondary Vasculitides	61
10. Pathology of Renal Vasculitis	67
<i>Ritambhara Nada, Manish Rathi, Aman Sharma, J Charles Jennette</i>	
Small-vessel Vasculitis	67
Medium-vessel Vasculitis	78
Large-vessel Vasculitis	83
11. Pathology of Vasculitis of the Central Nervous System and Peripheral Nerves	90
<i>Bishan Dass Radotra, Debajyoti Chatterjee</i>	
Noninfectious Central Nervous System Vasculitides	90
Primary Angiitis of the Central Nervous System	92

Central Nervous System Vasculitis due to Infections 95
 Peripheral Nerve Vasculitis 97

12. Pathology of Gastrointestinal Vasculitis 102

Ritambhara Nada, Ridhi Sood, Aravind Sekar, Aman Sharma, Surinder Rana, Rajesh Gupta

Incidence of Primary Gastrointestinal Tract Vasculitis 102
 Anatomic Considerations 103
 Organ-wise Involvement of Gastrointestinal Tract Vasculitis 103
 Presentations of Gastrointestinal Tract Vasculitis 103
 Grossing and Handling of Pathological Specimens 103
 Classification of Vasculitis Involving the Gastrointestinal Tract 104
 Histopathological Diagnosis of Gastrointestinal Tract Vasculitis 112
 Differential Diagnosis of Gastrointestinal Tract Vasculitis 113

SECTION 3: IMAGING MODALITIES

13. Imaging in Vasculitis 119

Manphool Singhal, Chirag Kamal Ahuja

Ultrasonography 119
 Computed Tomography 119
 Magnetic Resonance Imaging 120
 Digital Subtraction Angiography 120
 Imaging: What to Look For? 121
 Large-vessel Vasculitis 121
 Medium-vessel Vasculitis 125
 Small-vessel Vasculitis 128
 Variable-vessel Vasculitis 130
 Single-organ Vasculitis 132
 Vasculitis Associated with Systemic Disease 132
 Infection-related Vasculitis 132

14. Positron Emission Tomography in the Systemic Vasculitides 135

Kaitlin A Quinn, Peter C Grayson

Principles of Positron Emission Tomography Imaging 135
 Role of Fluorodeoxyglucose-positron Emission Tomography in Giant Cell Arteritis 137
 Role of Fluorodeoxyglucose-positron Emission Tomography in Takayasu's Arteritis 139
 Role of Positron Emission Tomography in Other Forms of Large-vessel Vasculitis and Related Diseases 140
 Novel Radiotracers 142

SECTION 4: CLINICAL MANIFESTATIONS ACCORDING TO ORGAN INVOLVEMENT

15. Cutaneous Vasculitis 149

Sunil Dogra, Vinay Keshavamurthy

Epidemiology 149
 Classification and Nomenclature of Vasculitis 149
 Pathogenesis 150
 Approach to a Patient with Vasculitis 152

Cutaneous Leukocytoclastic Angiitis	154	
Immunoglobulin A Vasculitis	154	
Urticarial Vasculitis	155	
Cryoglobulinemic Vasculitis	156	
ANCA-associated Vasculitis	156	
Polyarteritis Nodosa and Cutaneous Arteritis	157	
Treatment	158	
16. Retinal Vasculitis		161
<i>Reema Bansal, Mohit Dogra, Amod Gupta</i>		
Clinical Features	162	
Diagnostic Work-up	163	
Tuberculosis	164	
Herpes Viruses	164	
Cytomegalovirus	165	
Toxoplasmosis	165	
Syphilis	166	
Behçet's Disease	167	
Sarcoidosis	168	
Systemic Vasculitis Granulomatosis with Polyangiitis (Wegener's Granulomatosis), Polyarteritis Nodosa, and Takayasu's Arteritis	168	
Frosted Branch Angiitis	169	
17. Cardiac Manifestations		170
<i>Rajesh Vijayvergiya, Samman Verma</i>		
Pathogenesis	170	
Specific Vasculitis	171	
18. Pulmonary Manifestations		178
<i>Surinder K Jindal, Aditya Jindal</i>		
Clinical Manifestations	178	
Granulomatosis with Polyangiitis	180	
Behçet's Disease	181	
Eosinophilic Granulomatosis with Polyangiitis	182	
Connective Tissue Disorders	182	
Miscellaneous Vasculitides with Pulmonary Manifestations	182	
Pulmonary Renal Syndrome	182	
Management of Pulmonary Vasculitis	183	
19. Renal Manifestations		185
<i>Manish Rathi, Sachin Naik, Aman Sharma</i>		
Large-vessel Vasculitis	185	
Medium-vessel Vasculitis	186	
Small-vessel Vasculitis	186	
Other Vasculitis	189	
20. Neurological Manifestations		192
<i>Tanish Modi, Manish Modi, Manoj Goyal</i>		
Central Nervous System Syndromes	192	
Peripheral Nervous System Syndromes	195	

21. Vasculitic Neuropathy	201
<i>Tina Sood, Tanish Modi, Manoj Goyal</i>	
Classification	201
Epidemiology	202
Pathogenesis and Pathology	203
Clinical Features	203
Types of Vasculitic Neuropathies	204
Diagnosis	208
Differential Diagnosis	210
Management	210
22. Gastrointestinal Manifestations	217
<i>SK Sinha, Mithu Bhowmick, Jayanta Samanta</i>	
Gastrointestinal Tract Involvement in Large-vessel Vasculitis	217
Gastrointestinal Tract Involvement in Medium-vessel Vasculitis	217
Gastrointestinal Tract Involvement in Small-vessel Vasculitis	219
23. Head and Neck Manifestations	234
<i>Naresh K Panda, Roshan K Verma</i>	
Otolaryngologist Perspective	234
Head and Neck Manifestations in GPA	235
Otologic Manifestation	235
Rhinologic Manifestations	235
Otolaryngologist's Role	236
Laryngeal and Tracheal Manifestation	236
Oral Manifestations	237
Differential Diagnosis	237
Eosinophilic Granulomatosis with Polyangiitis	237
Kawasaki Disease	238
Polyarteritis Nodosa	238
Giant Cell Arteritis	238
Head and Neck Manifestations	239
SECTION 5: PRINCIPLES OF MANAGEMENT	
24. Approach to Childhood Vasculitis	245
<i>Amita Aggarwal, Naveen R</i>	
Prevalence	245
Clinical Features	245
Other Forms of Leukocytoclastic Vasculitis	248
25. Approach to an Adult with Systemic Vasculitis	253
<i>Ananya Sharma, Aman Sharma</i>	
Clinical Features	253
26. Assessment of Disease Activity and Damage	259
<i>Aman Sharma, Durga Prasanna Misra</i>	
Tools for Assessment	259
Radiological Assessment	259

Serological Markers in Disease Assessment	260
Clinical Indices of Disease Assessment	261
Disease Activity	261
Instruments for Assessing Disease Activity	261
Damage	262
Vasculitis Damage Index	262
Quality of Life Assessment	262
Patient-reported Outcomes	262

27. Newer and Future Treatments of Systemic Vasculitides **265**

Siddharth Jain, Aman Sharma, David Jayne

ANCA-associated Vasculitis	265
Giant Cell Arteritis	267
Takayasu Arteritis	267
Other Significant Mentions	268

SECTION 6: INDIVIDUAL VASCULITIS SYNDROMES

28. Giant Cell Arteritis and Polymyalgia Rheumatica **273**

Tanaz A Kermani

Epidemiology	274
Diagnosis	275
Clinical Features	276
Investigations	277
Diagnostic Approach	279
Management	280

29. Takayasu's Arteritis **285**

Aravind G Hegde, Ruchika Goel, George Joseph, Debashish Danda

History	286
Epidemiology	286
Classification Criteria and Diagnosis	286
Pathology	287
Pathogenesis	287
Clinical Features	288
Diagnosis	290
Imaging	290
Differential Diagnosis	291
Treatment	291
Corticosteroids	292
Conventional Immunosuppressives	292
Definition of Refractory Disease in Takayasu's Arteritis	292
Biologic Agents	292
Endovascular and Surgical Interventions	294
Disease Activity Assessment and Monitoring	295
Future Directions	295

30. Kawasaki Disease	301
<i>S Madhusudan, Surjit Singh</i>	
Epidemiology	301
Etiopathogenesis	302
Clinical Features	302
Investigations	303
Incomplete and Atypical Kawasaki Disease	303
Differential Diagnosis	303
Treatment	304
Kawasaki Disease and Multisystem Inflammatory Syndrome in Children	304
31. Polyarteritis Nodosa	306
<i>Loïc Guillevin</i>	
Classification Criteria and Diagnosis	307
Epidemiology	309
Etiology and Precipitating Factors	309
Histology	309
Clinical Features	310
Laboratory Tests	314
Angiography	314
Outcome and Prognosis of Polyarteritis Nodosa	314
Treatment of Polyarteritis Nodosa	314
How should Polyarteritis Nodosa be Treated?	315
32. Deficiency of Adenosine Deaminase 2	318
<i>Benzeeta Pinto, Prateek Deo, Pui Y Lee, Aman Sharma</i>	
Pathogenesis of Deficiency of Adenosine Deaminase 2	318
Genetics of Deficiency of Adenosine Deaminase 2	319
Clinical Features	319
Diagnosis	321
Treatment and Outcomes	322
33. Autoinflammatory Vasculitic Syndromes	324
<i>Naveen R, Durga Prasanna Misra</i>	
Monogenic Autoinflammatory Diseases	324
Other Autoinflammatory Diseases	325
Polygenic Autoinflammatory Diseases	326
Vasculitis Mimics	326
34. VEXAS Syndrome	328
<i>Jithin Mathew, Aman Sharma, Peter C Grayson</i>	
Genetic Basis	329
Pathophysiologic Role—UBA1	329
Clinical Features	330
Clinical Heterogeneity	332
Prognosis	332
Therapeutics	332

35. Granulomatosis with Polyangiitis	335
<i>Aman Sharma, Vikas Sharma, Sakshi Mittal, Benjamin Terrier</i>	
Classification and Nomenclature	335
Epidemiology	336
Pathogenesis	336
Clinical Features	337
Other Manifestations	340
Diagnostic Evaluation	340
Measurement of Disease Activity	341
Treatment	342
Remission Induction	342
Treatment of Refractory Diseases	344
Treatment of Relapsing Diseases	344
Plasma Exchange	344
Other Treatment Aspects	345
Morbidity	345
36. Microscopic Polyangiitis	350
<i>Chetan Mukhtyar, Puneet Mashru</i>	
Epidemiology	350
Diagnosis	351
Clinical Features	352
Investigations	352
Management	352
Treating Relapsing or Refractory Disease	354
Prognosis	354
37. Eosinophilic Granulomatosis with Polyangiitis	357
<i>Christian Pagnoux, Corisande Baldwin</i>	
Epidemiology	359
Pathogenesis	359
Diagnosis	360
Clinical Features	361
Investigations	365
Diagnostic Approach	366
Management	366
38. Immunoglobulin A Vasculitis	372
<i>Deepti Suri, Vikas Suri</i>	
Epidemiology	372
Clinical Features in Children	373
Clinical Features in Adults	374
39. Primary Angiitis of the Central Nervous System	378
<i>Brendan Antiochos, Philip Seo</i>	
Epidemiology	378
Diagnosing PACNS	378
Clinical Features	378
Imaging	379

Biopsy and Pathology	379	
Mimics	380	
Treatment	380	
40. Behçet's Disease: Diagnosis and Management		382
<i>Fatma Alibaz-Oner, Haner Direskeneli</i>		
Epidemiology	382	
Diagnosis	382	
Clinical Features	383	
Investigations	386	
Differential Diagnosis	386	
Management	386	
41. Cryoglobulinemic Vasculitis		391
<i>Benjamin Terrier</i>		
Classification and Nomenclature	391	
Epidemiology	392	
Pathogenesis	392	
Clinical Features	393	
Diagnostic Evaluation	394	
Etiologies	395	
Treatment	396	
Morbidity	397	
42. Relapsing Polychondritis		400
<i>Aman Sharma, Rajender Kumar, Diganta Das, Arjun D Law, Rohini Handa, Marcela Ferrada</i>		
Epidemiology	400	
Etiopathogenesis	400	
Clinical Features	401	
Auricular and Vestibular Involvement	401	
Joint Involvement	401	
Nasal Involvement	401	
Respiratory Tract Involvement	402	
Cardiovascular Involvement	402	
Ocular Involvement	403	
Neurologic Involvement	403	
Renal Involvement	403	
Dermatological Involvement	403	
Other Symptoms	403	
Prognosis	403	
Associated Conditions	404	
Diagnostic Criteria	404	
Differential Diagnosis	404	
Investigations	404	
Assessment of Disease Activity and Damage	406	
Management	406	
Management of Complications and Sequelae	407	

43. Immunoglobulin G4-related Disease	412
<i>M Vishnu Vardhan Reddy</i>	
How Concept of Immunoglobulin G4-Related Disease had Evolved?	412
Epidemiology	413
Pathogenesis	413
Diagnosis	414
Histopathological Features of Immunoglobulin G4-Related Disease	415
Quantitative Assessment of the Immunoglobulin G4 Stain	415
Clinical Features	417
Pancreas	417
Aortitis	419
Peripheral Nerves	420
Phenotypes	420
44. Infection-associated Vasculitis	422
<i>Syed Atiqul Haq, ATM Tanveer Hasan</i>	
Microbiology	422
Pathogenesis	423
Clinical Features	424
Diagnosis	425
Treatment	425
45. Vasculitis Mimics	430
<i>Subramanian Ramaswamy, Vinod Ravindran</i>	
When to Suspect Vasculitis Mimics?	431
Infections	431
Disorders of the Connective Tissue Matrix	432
Drug-induced Vasculitis	433
Malignancy-associated Vasculitis	433
Atherothrombotic Vascular Disorders	433
Miscellaneous	433
Diagnostic Approach and Management	434
46. Secondary Vasculitis	436
<i>Varun Dhir</i>	
Rheumatoid Vasculitis	436
Lupus Vasculitis	439
Lupus Mesenteric Vasculitis (Lupus Enteritis)	440
Central Nervous System Vasculitis in Systemic Lupus Erythematosus	442
Sjögren's Syndrome-associated Vasculitis	442
Paraneoplastic Vasculitis	442
Infection-associated Vasculitis	443
47. Cogan's Syndrome	447
<i>Tommy Chan, Rohan Bir Singh, Vishal Jhanji</i>	
Epidemiology	447
Clinical Features	447
Ocular Manifestations	448

Audiovestibular Manifestations	448
Systemic Manifestations	448
Diagnostic Approach and Investigations	448
Treatment	449
48. Cancer-associated Vasculitis	451
<i>Chandan K Das, Pankaj Malhotra</i>	
Paraneoplastic Vasculitis	451
Chemotherapy Drug-induced Vasculitis	453
Immune Checkpoint Inhibitor-associated Vasculitis	454
49. Pregnancy and Vasculitis	457
<i>GSRSNK Naidu, Susmita Sharma, Aman Sharma</i>	
Fertility Concerns	457
Conception and Preconception Counseling	458
Pregnancy Outcomes	459
Large-vessel Vasculitis	459
Medium-vessel Vasculitis	459
Small-vessel Vasculitis	460
Variable-vessel Vasculitis	460
50. Prevention and Management of Infections	463
<i>Gaurav Prakash, Subhash Varma, Pankaj Malhotra</i>	
Defining an Immunocompromised Host	463
Common Medications in the Treatment of Vasculitis that Cause Immunosuppression	464
Prevention of Infections in the Patient Treated for Vasculitis	464
Treatment of Vasculitis in Specific Infections	466
Clinical Features and Evaluation of Infections in an Immunocompromised Host	466
Management	467
Index	469
